DEDICATION

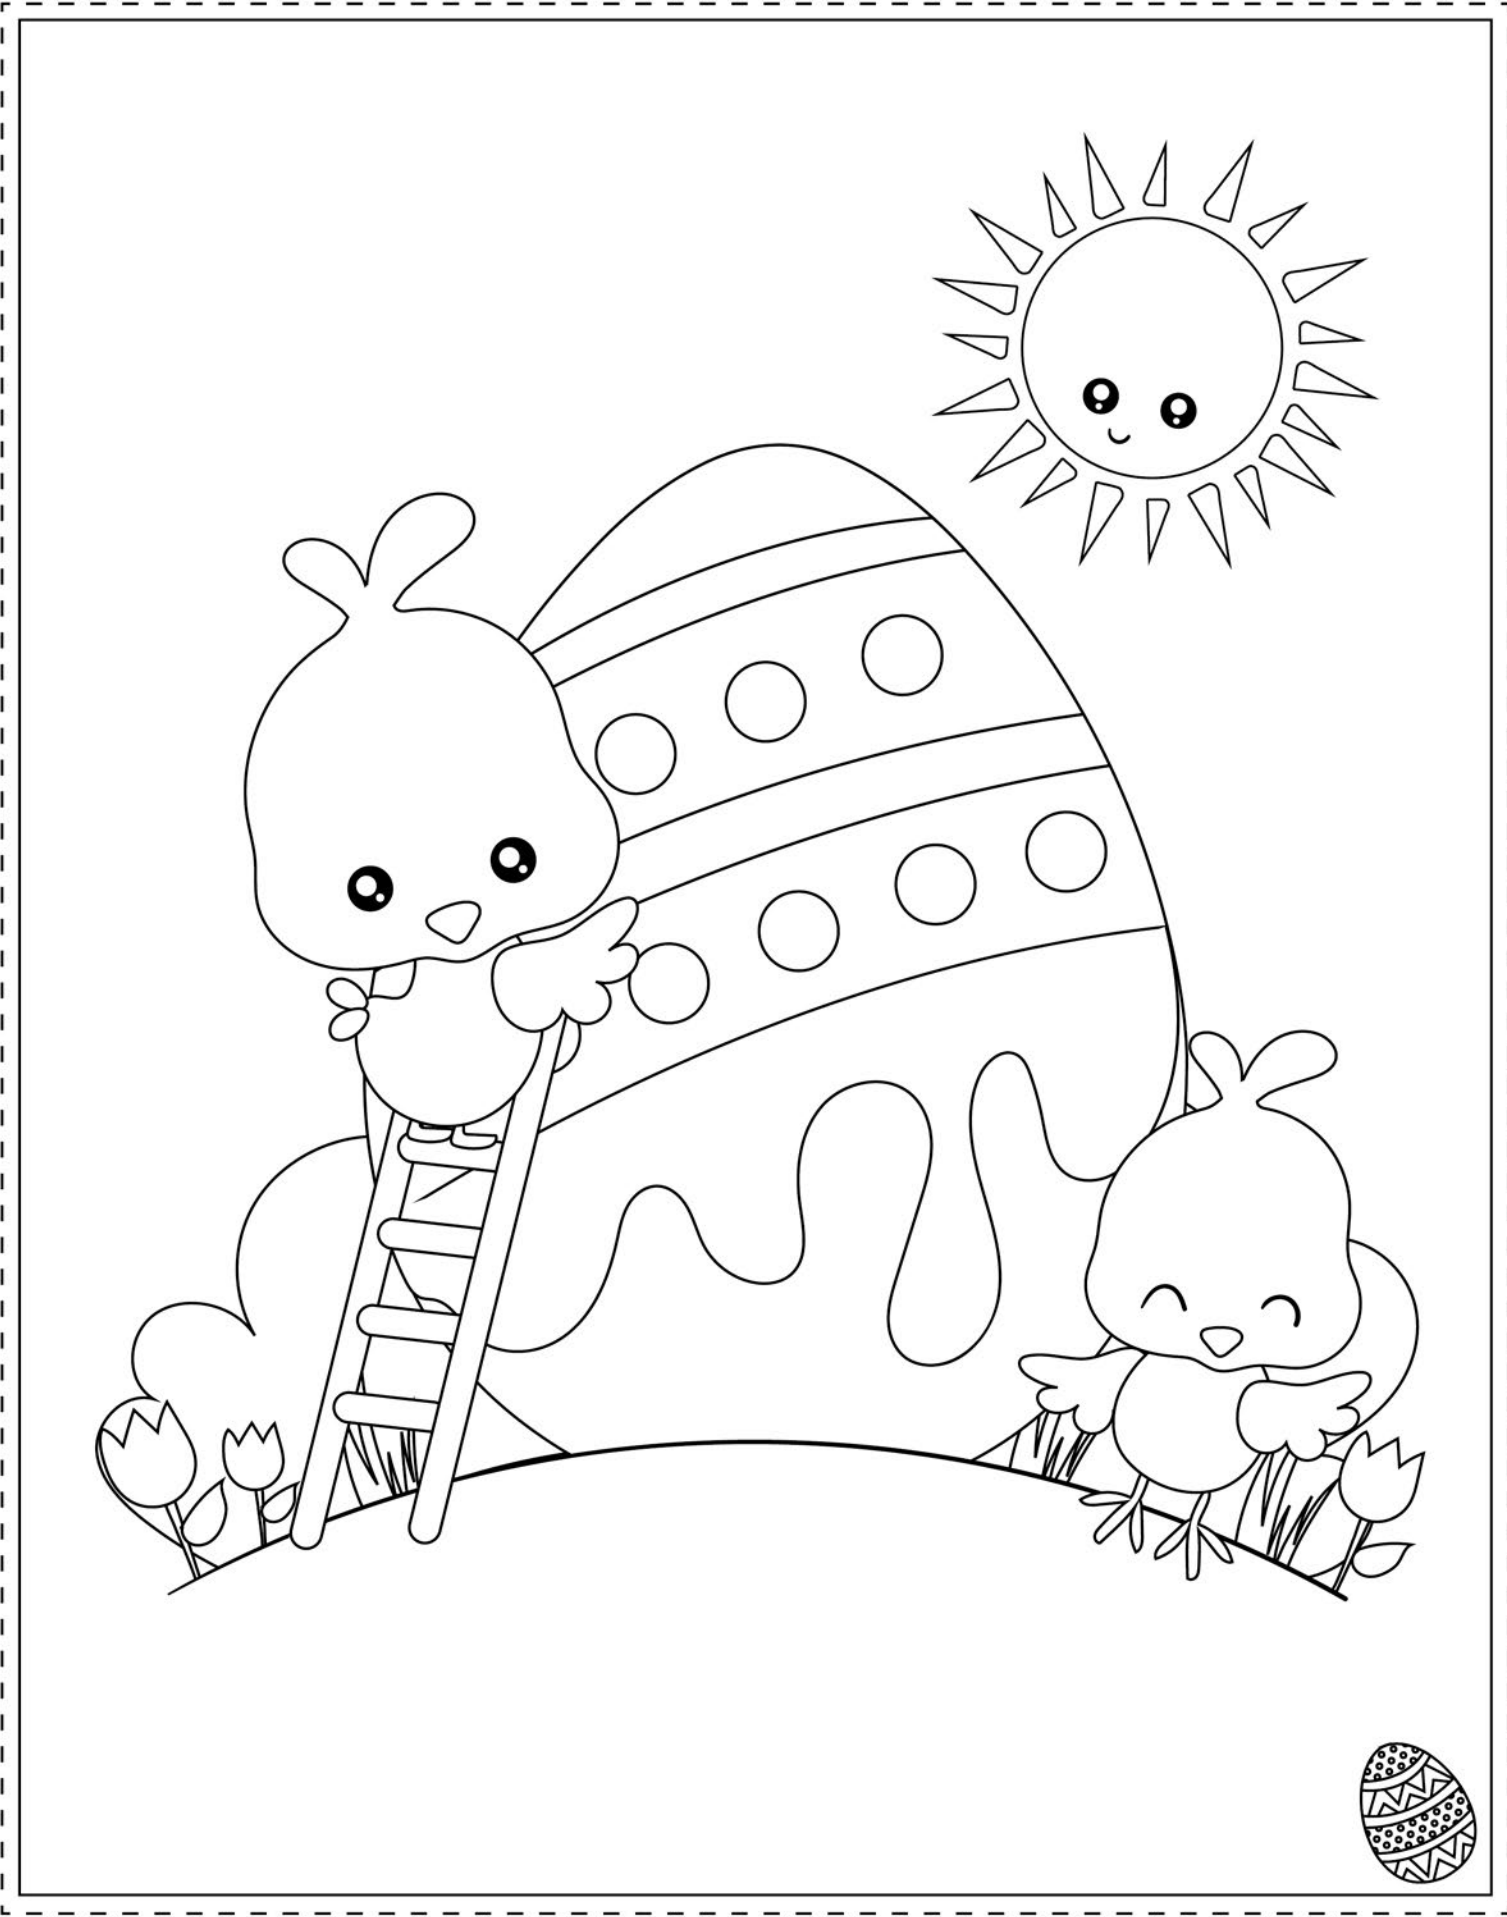

To all the kids and grown-ups that love drawing and coloring. Creativity and fun is a very powerful tool. Have fun coloring, and don't bother too much about lines, drawing outside of them is fine art.

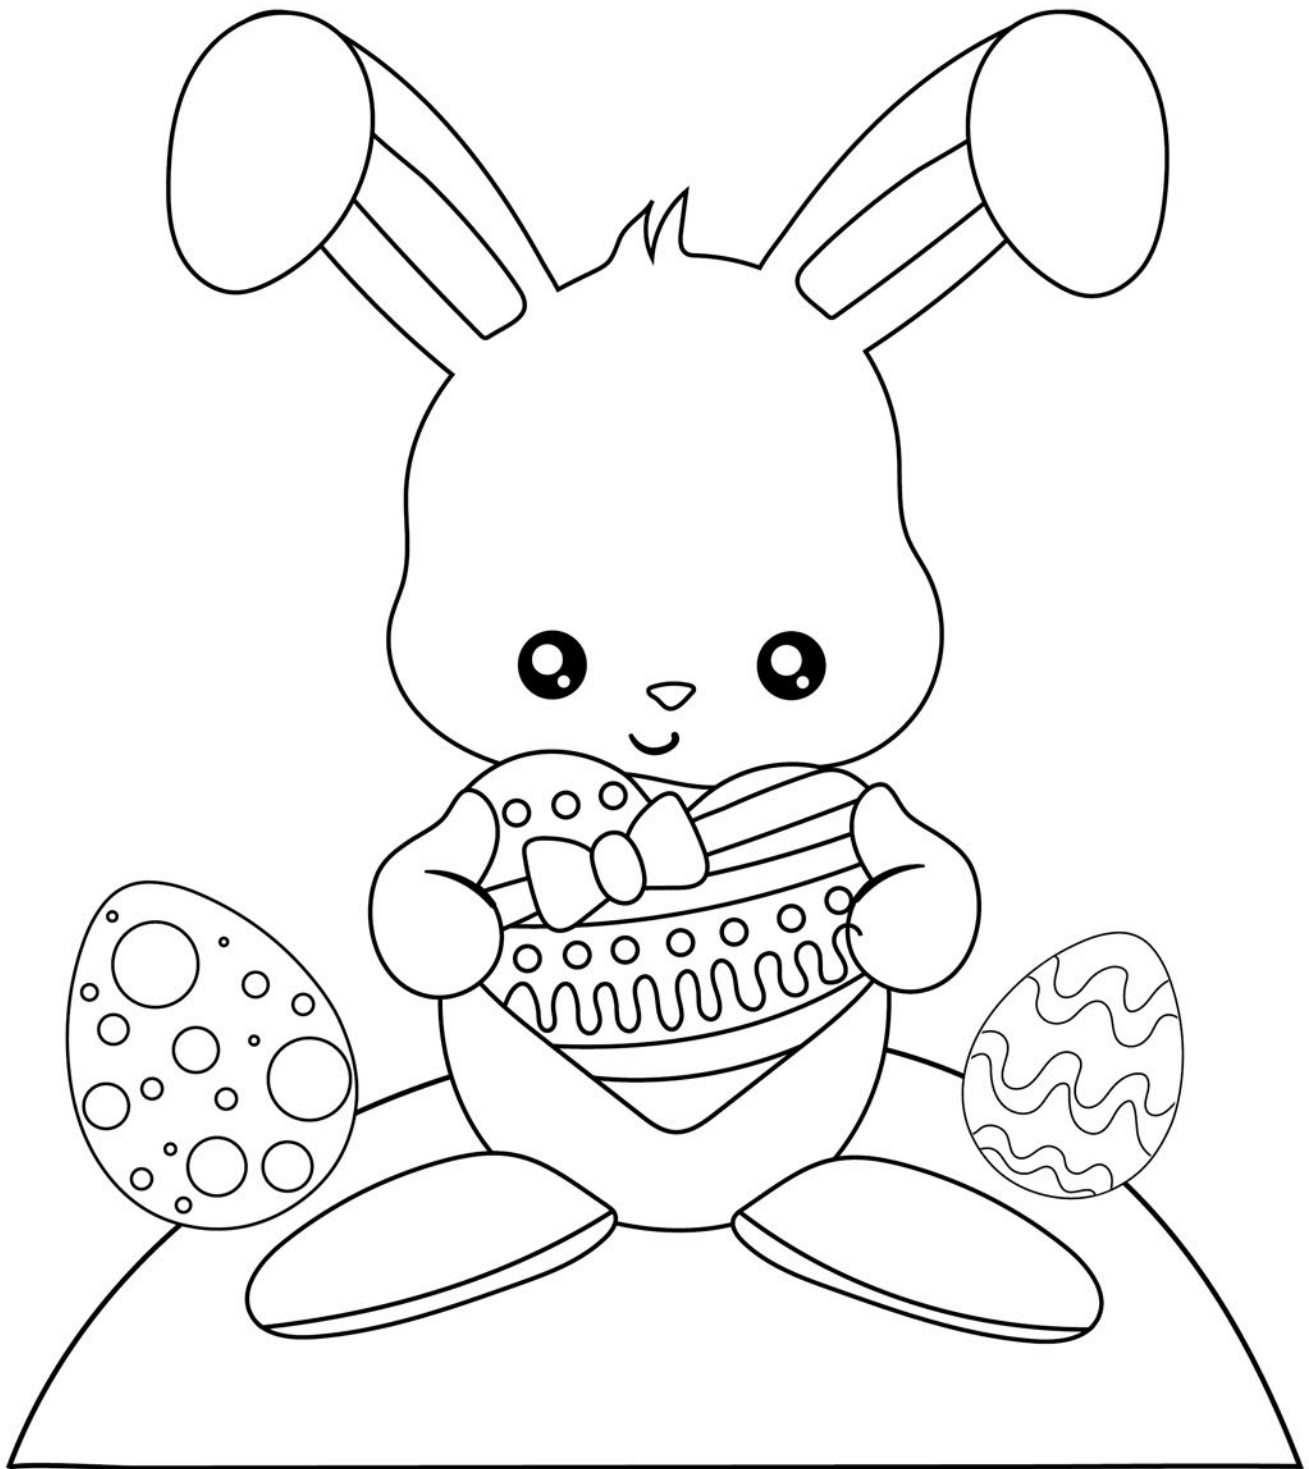

ACKNOWLEDGMENTS

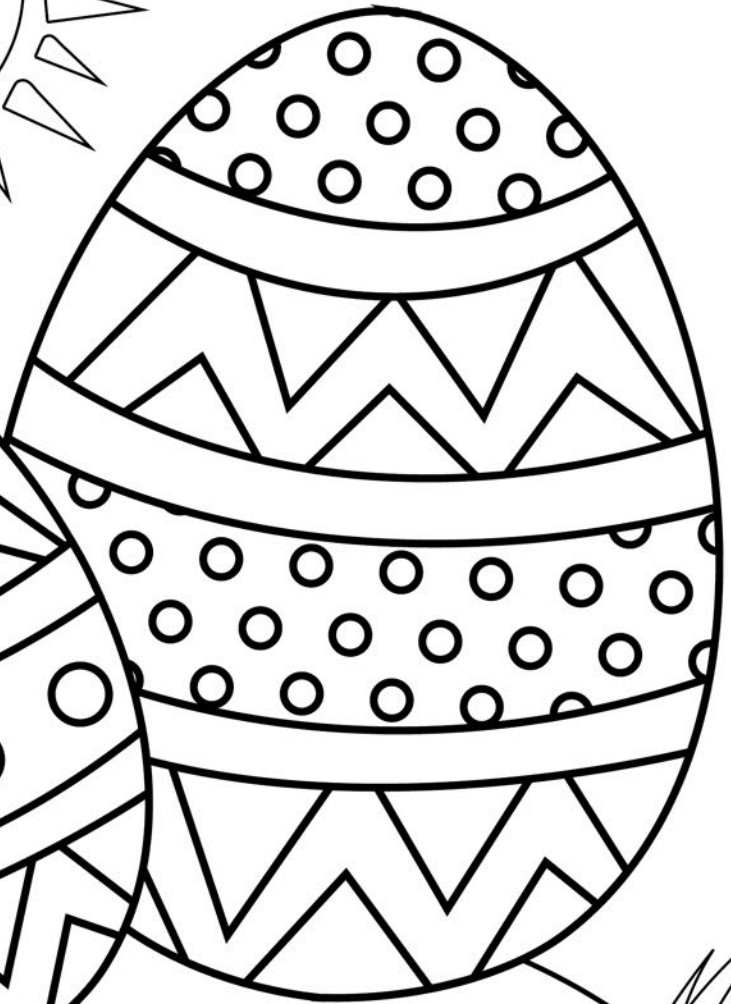

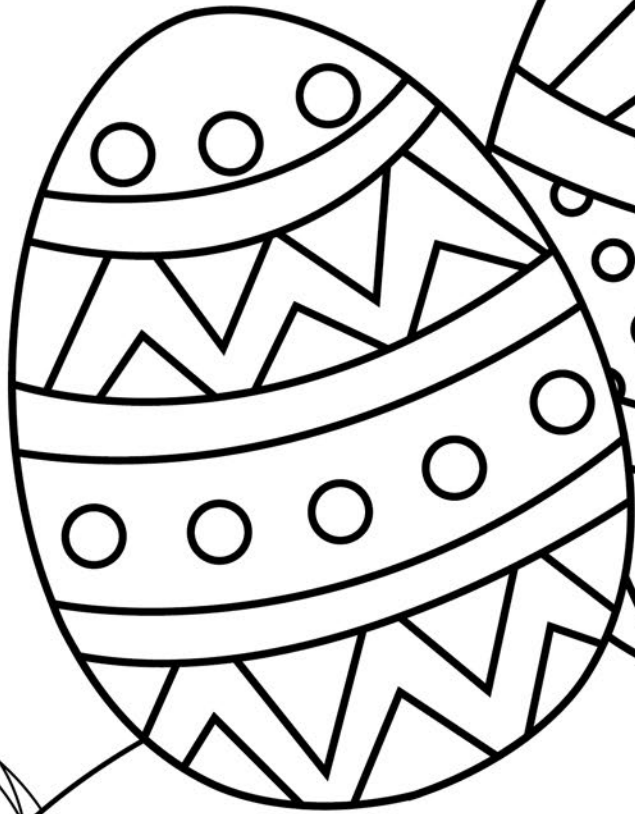

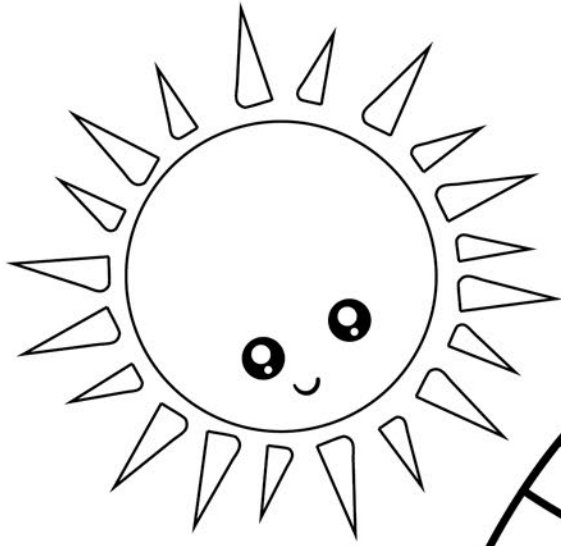

We cannot express enough thanks to all our fans for their continued support and encouragement. It's because of your continuing support Online that we can publish our art and share our passion.

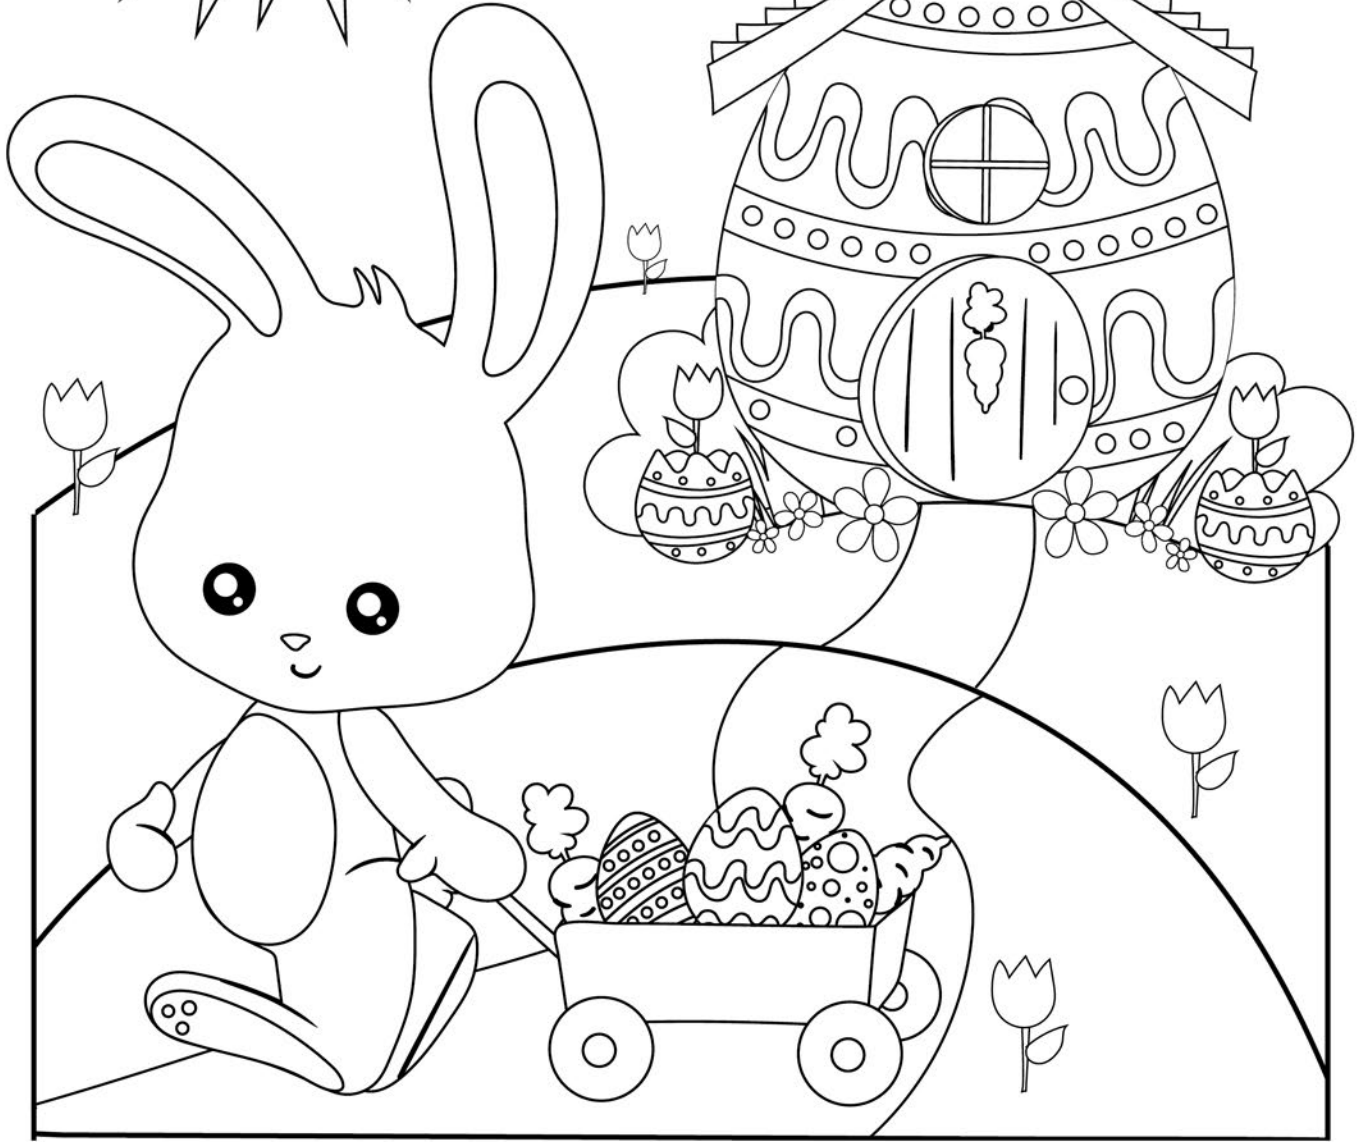

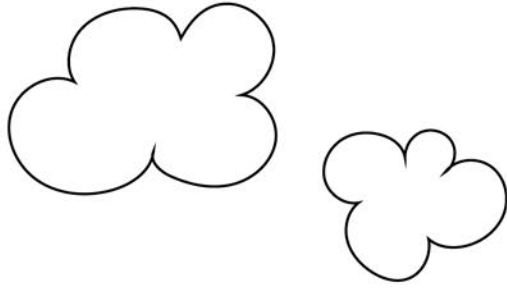

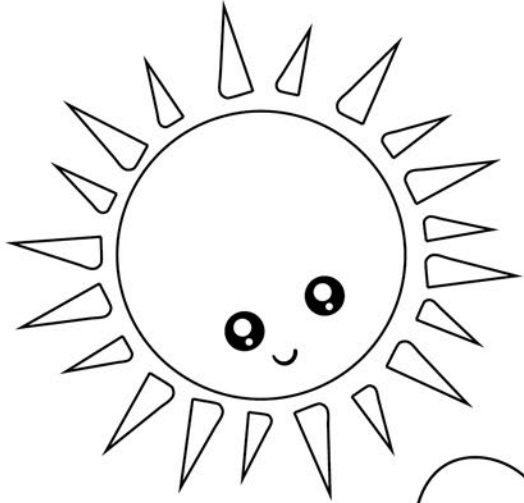

The completion of this coloring book could not have been accomplished without the success we have had for the past several years with Prettygrafik Design. This book is a special project for us and one of many we hope.

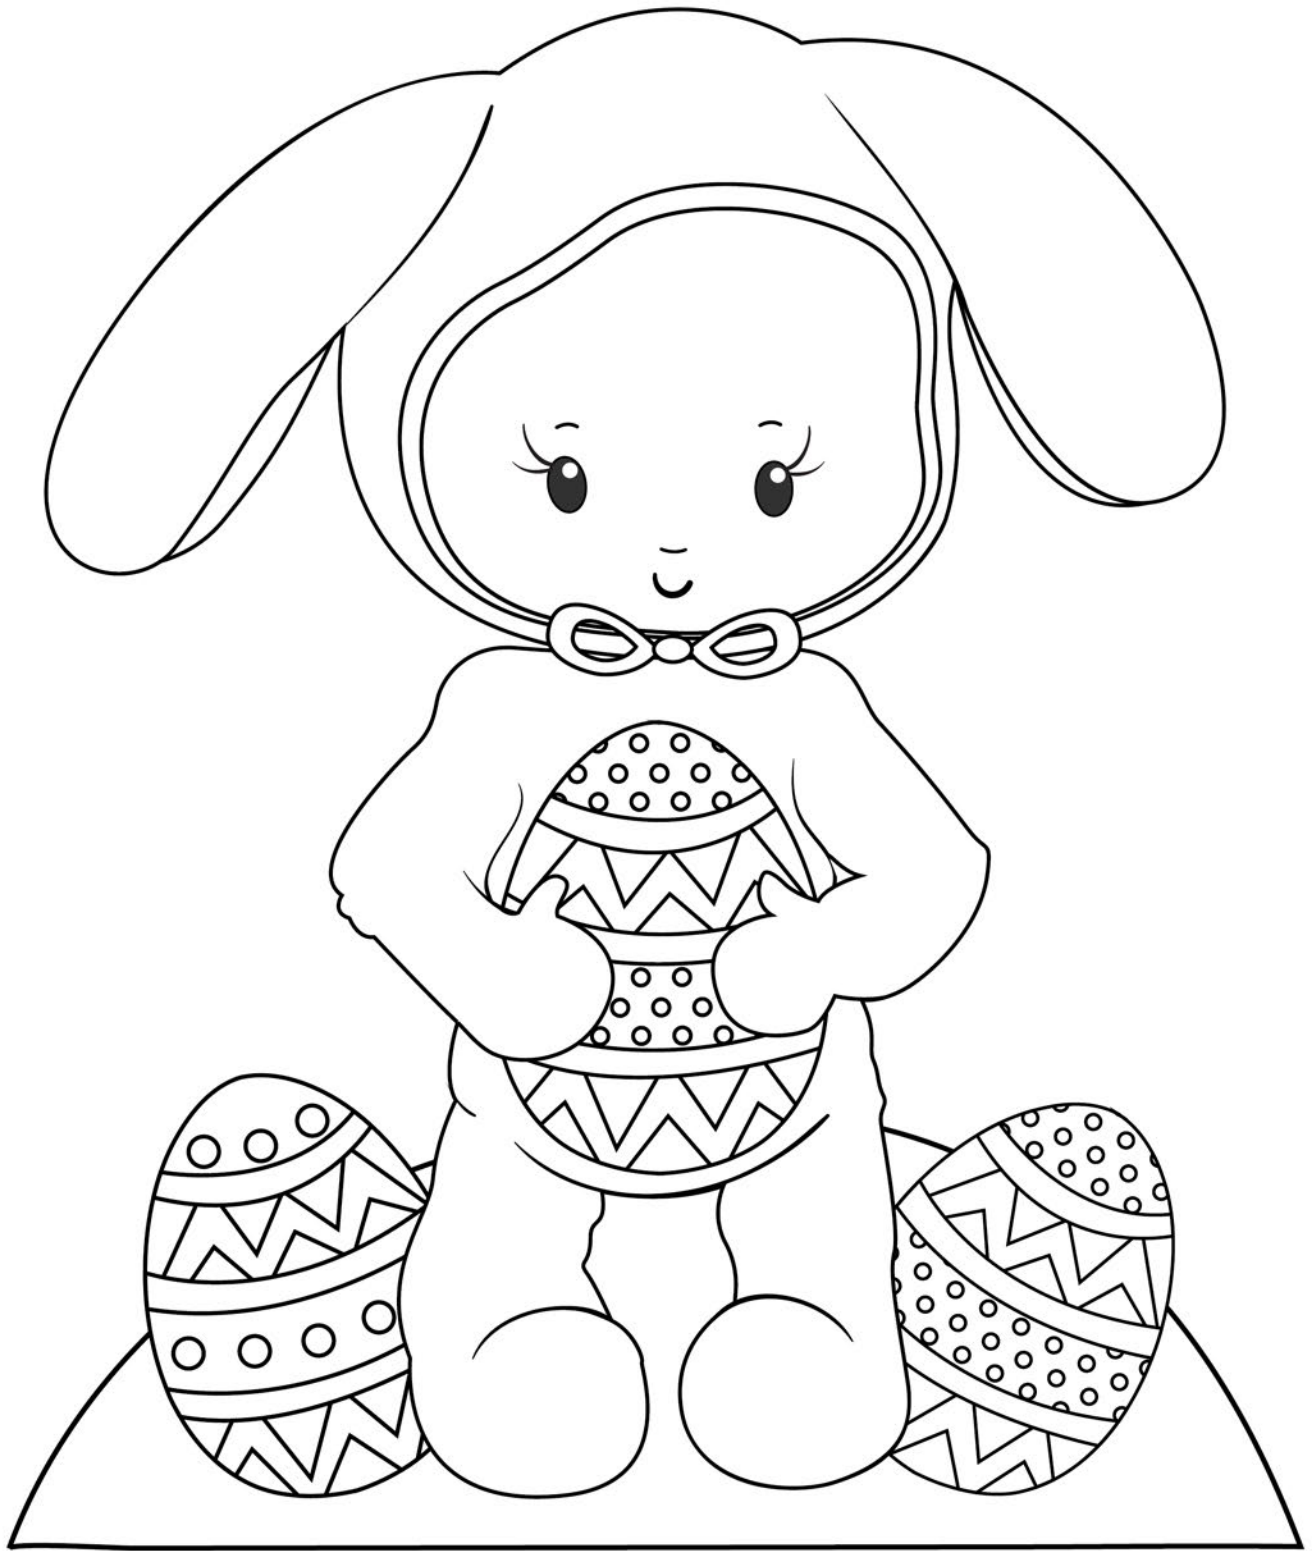

Finally, we wish to transmit our passion for coloring, drawing and being creative to all the kids and grown-ups that enjoy coloring these images. Creativity is a powerful tool and may coloring these drawings cultivate it.
