delivering long term results!**

WHAT DO THOSE SURVEY RESULTS MEAN?

Our latest SURVEY of listeners in 2019 showed that people ARE listening to us...

**97.3 Coast FM was the station listened to most by...
21.5% 10+ in the region, and...**

91.7 The Wave which rose to 29.2% for 40-54 year olds.

Both 97.3 Coast FM and 91.7 The Wave performed almost 3 TIMES BETTER than the metro Perth stations which are also accessible in the area. With Hit, Nova & Mix 94.5 coming in 3rd, 4th and 5th respectively.

97.3 Coast FM was only marginally ahead of 91.7 The Wave in the Breakfast ratings as well, with Nikki & de Mello only just winning over Gunners & Ali who moved to The Wave in September last year with the launch of the new station.

Which means: There is 42.5% combined audience listening to both of our local stations each week.

So, who dominates the airwaves in the Peel region? WE DO!

There is no other medium that can reach such a broad cross section of potential customers as radio.

There is not only the audience... there's also the attention factor too.

Placing your message in front of a consumer for 30 (or 60) seconds is a gold mine.

Compare this to the few seconds the average web browser spends on a single web page, the second or two when turning the page of a newspaper or the powerful mute button in television...

Repetition of your message also helps your radio commercial be more effective.

While that web browser may never return to that web page, they will likely hear your radio ad multiple times. And, of course, repetition enforces recognition, and your message.

We also offer you something 'EXTRA' on COAST FM?

Coast FM loyal listeners and advertisers... have access to the... **97.3 Coast Card**.

It's a loyalty card like no other.
