To, Ana Dumitrescu

I'm writing this letter to thank you for all your hard work and dedication to making my radio advertising campaign smooth and easily understood. As I'd never advertised on radio before it was very foreign and a bit confusing, but you ran me through it and explained exactly what I was signing up for. I also appreciate the time you took to understand my business so when it came time to write a script yourself and Earl made it easy.

I must also mention Peter Rowe on the 91.7 the Wave. Since become a sponsor of Connect Four I'm regularly getting customers making mention of hearing Rowie talk about EcoKleenSolar.

I've since compared my investment in radio advertising to our paid Facebook and LinkedIn advertising. Our radio advertising gets much better return and the brand awareness in our local community is priceless.

Again, thank you to you and the team, looking forward to many more campaigns.

Regards,

David Lindsay
