3	Email was received from a business associate of 20 years at another local Non-profit Religious organization that she was considering returning to the workforce. We responded with the information that we were planning a search for a person with her specific skills and experience. She'd been a colleague & volunteer with KSOS, so we knew her well. After several interviews, it was clear that she was fully qualified to fill & help establish this newly created department, & already a resident of our community.	1	1
