

Getting to WCRFM Studios

By Car:

Enter the city centre by driving past the Way Youth Zone (School Street) and follow the signs to the **Mander Centre Service area**. Your route will take you down Summer Row past All Nations Church. The best postcode to use for your Satnav is **WV1 3PR**, which brings you to Bell Street.

You will reach the Mander Centre Car Park as shown in the photo below.

Drive down the ramp on the left where it says 'IN'. At the barrier buzz security and say you are coming to the Radio Station "WCRFM".

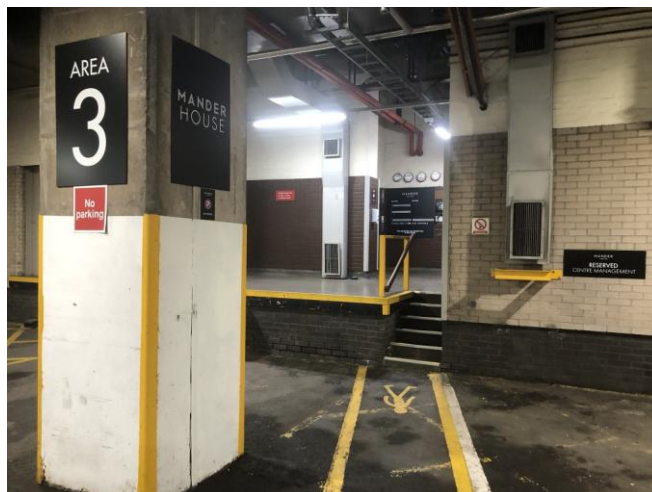

On a Sunday, you should be able to drive as far as you can to Area 3, where you can park. There is a lift in the corner (on your right as you come in) up six steps (see photo below). Take the lift to floor 2 and turn right out of the lift and press the buzzer. If no one comes immediately, it may be that they are on air and need to wait for a gap.

If area 3 is busy, there are designated WCR parking places immediately on the right at the bottom of the ramp when you first come in.

Please note that the Mander Centre and its car park do not usually open until 9.30 on a Sunday morning. The only access is via the basement in Bell Street.

The general public Mander Centre car park (entered to the right of the orange sign above) enables you to park on the roof, next to the tall building, which is Mander House. You will usually need to pay for parking here, but it is the accessible way to the studios as there is a ramp on one side of Mander House. Take the lift to the second floor.

If you are on foot, walk through the basement area from Bell Street as far as you can go (Area 3) and go up the steps on your right (as in this picture->) and use the lift in the corner to floor 2.

Alternatively, walk through the Mander Centre and take the lift to the roof car park. Mander House is the tall building you will see. Take the lift to floor 2 as said above. You can also go up the steps at the end of the Victoria Arcade which bring you out by Mander House.

There are many lifts in the basement, the correct one has a sign with "WCR Radio" on it, adjacent to the lift. It is NOT a goods lift.

If any problems – give me a call. If I don't answer immediately, I will call you back.
