SPONSORSHIPS

Sponsorship & Promotions

Radio sponsorships are an easy way to take your radio advertising to the next level.

Sponsorships are incorporated into radio programming instead of being reserved for commercial breaks in 30-second spots like regular advertising.

Radio sponsorships are carefully built into the day's programming and help promote programs, features and competitions.

Radio sponsorships are effective for building brand awareness and increasing visibility for a company.

Our packages gives you a combination of airtime and sponsorship for maximum impact.
